

Quality Policy of InProteins for All

Commitment to Innovation, Quality, and Sustainability

At **INPROTEINS**, we contribute to the transformation of the current food system through technology and innovation, offering high-quality plant-based protein ingredients to meet our customers needs and support a more sustainable future food. Our quality policy is based on the following principles:

1. Continuous Innovation

We incorporate advanced technologies, research, and development to create plant-based protein ingredients that are healthy, safe, and make a positive impact in the market. We are committed to leading the transition towards more efficient, sustainable and accessible nutrition for all.

2. Quality at Every Stage of Our Production Process

We ensure excellence at every step of our value chain, from product development to final delivery. We comply with international quality and food safety standards and established Quality Objectives. We regularly audit our Management System to ensure our products exceed customer expectations.

3. Sustainability and Social Responsibility

We design our processes and plant-based protein ingredients with a sustainable approach, minimizing environmental impact and promoting responsible practices throughout our supply chain. We support ethical production, efficient resource use, and waste reduction.

4. Customer Orientation

We actively listen to our customers to understand their needs and develop customized solutions that add value. Our priority is to ensure their satisfaction by offering fully traceable, safe, and innovative plant-based protein ingredients.

5. Culture of Continuous Improvement

We promote a mindset of learning and continuous improvement within our organization, ensuring we adopt best practices and constantly optimize our processes to stay at the forefront of the FoodTech sector.

6. Commitment to Food Safety

We implement stringent quality and food safety management systems, ensuring that our products meet the highest levels of safety and traceability.

7. Collaboration and Transparency

We work closely with suppliers, customers, and other strategic partners to build relationships based on trust and transparency, strengthening the FoodTech ecosystem.

Our Vision

To be global leaders in food innovation, developing solutions that enhance people's quality of life and protect the planet.

Our Commitment

The management and all employees of INPROTEINS assume the responsibility to implement, maintain, and continuously improve this quality system, ensuring alignment with our mission, vision, and values.
